

MarketFarmers

"MarketFarmers markets farmers' markets"

MarketFarmers

Introduction

Problem Introduction

- Farmers market needs to be advertised because fewer people are attending the farmers' market.
 - To attract more customers...
 - We plan to make an application to engage customers with the farmers market and the vendors themselves .
 - To promote this application, we are creating a social media-based ad campaign and partnering with local businesses.
-

MarketFarmers

Scenario

Scenario

HIS NAME IS JOE.

- He decided to sell his products at farmers' market to get rid of the medium circulation.
- But people didn't come, so he couldn't sell his things.
- He thought advertise was a problem and he asked us to do it.

MarketFarmers

Solution Design

Our Solution: Overview

What we aim to accomplish:

1. Product Awareness
2. Community-Producer Relationship
3. Reciprocity

Three-sided approach to promotion:

1. Social Media-Based Marketing
 2. Mobile Application
 3. Reciprocal Community Advertisement
-

So, How Does it Work?

Who Are We Targeting?

Potential Competitors

- Farmstand - links users through taking/posting pictures of different markets and vendors
- Seasons - Shows the availability of farmers markets and local food based on growing seasons
- Locavore - Database of farmers/markets, has recipes for in-season ingredients
